FACULTY OF APPLIED SCIENCE & TECHNOLOGY

# Apprenticeship Training Programs

Sheridan's apprenticeship training in skilled trades is nationally recognized.

Sharpen your skills in your trade.

## Full and part-time training

We offer block release (full-time training) and day release (part-time training) in apprenticeship programs, including:

- Construction and Maintenance Electrician
- Industrial Electrician
- Industrial Mechanic Millwright
- Construction Millwright
- Tool and Die Maker
- Tool/Tooling Maker
- General Machinist

## First-class facilities

All of Sheridan's apprenticeship programs take place in state-of-the-art facilities equipped with the most current industry-standard equipment. You'll put theory learned in the classroom into practice on machinery and equipment similar to what you'll use in the workplace.

## First-class instructors

You'll also enjoy lots of interaction with your instructors, who are all seasoned journeypersons with many years of industry experience. Our faculty know what it takes to succeed in the workplace, and how to pass on that knowledge to the next generation of tradespeople.

**Sheridan** | Get Creative

\* 2018 Key Performance Indicator (KPI) survey results produced by the Ontario Government, Colleges Ontario and student associations. Percentage shown reflects the average employer satisfaction across all Sheridan programs over the last five years.

## Admission Requirements

### Program Eligibility

The requirements for apprenticeship training courses offered at Sheridan are as follows:

- Must be employed in the appropriate skills sector and registered as an apprentice with the Ministry of Training, Colleges and Universities.

Refer to the website for full admission requirements.

## Career Opportunities

Sheridan's skilled trade apprenticeship programs involve approximately four years of off-the-job (in-school) and on-the-job (at the workplace) learning. During this time, students build their knowledge and hone their skills in a specific trade.

## Courses

### SOME OF THE COURSES YOU CAN EXPECT TO TAKE IN YOUR PROGRAM

AutoCad / Mastercam

Canadian Electrical Code

CNC Programming & Machining

Fluid Power, Pneumatics, Hydraulics

Power Transmission Systems/Pumps

Prime Movers / Conveyors / Rigging

Note: See website for specific terms and course listings.
