Office Administration – Health Services

Sheridan’s Office Administration – Health Services program gives you the skills you need to work in a busy health-care office or setting.

Critical training
The two-year program focuses on technical and professional skills required to work in a variety of Health Service settings. You will learn to use specialized medical software, OHIP billing, electronic calendaring and scheduling, and communication software applications.

Things you’ll learn
• Medical office procedures.
• Medical terminology, anatomy and medicine.
• Medical e-billing and scheduling.
• Medical transcription and techniques.
• Specialized medical software applications.

Medical Simulation or Field Placement
When you have successfully completed the first three terms and have met a prescribed GPA, you have the option of choosing either a Medical Simulation course or Field Placement (two days per week). Both options prepare you for entry-level administrative support positions in a medical office or setting. This is an excellent opportunity to gain work experience and evaluate different career paths.
