# Plumbing Technician

Set yourself up for a plumbing apprenticeship and other related opportunities with the only two-year plumbing diploma program offered in Ontario.

Tap into a bright future in the plumbing industry.

## Get an edge on the competition for apprenticeships

With so many people seeking plumbing apprenticeships in Ontario, two years of education can push you to the front of the line. In the second year of Sheridan's Plumbing Technician program, you'll learn advanced concepts that can save you hundreds of classroom hours during an apprenticeship. You'll also put your new skills and knowledge to work in a field placement.

## Earn Your Gas Technician 3 License

Plumbers are in high demand these days, and so are gas technicians. No other plumbing college program in the province provides gas technician training approved by the Technical Standards and Safety Authority (TSSA). Once you successfully complete your G3 gas technician courses, you'll be qualified to hook up furnaces, water heaters and other gas-fired appliances.

## Study under great professors from other departments

In addition to your plumbing courses, you'll also learn from experts in subjects such as welding or rigging and lifting. Sheridan's welding professors are among the best in Ontario, and our millwright students often win medals at provincial and national competitions.

## Admission Requirements

### Program Eligibility

Ontario Secondary School Diploma or equivalent, with these required courses:

- One English, Grade 12 (ENG4C or ENG4U)
- One Math, Grade 11 or 12

Or

Mature student status.

### Applicant Selection

Eligible applicants are selected on the basis of their academic achievement (the average of their six highest senior-level credits, including required courses).

Applicants who do not meet the admission requirements for this program will be assessed and advised individually and may be considered for other, related programs.

### English Language Proficiency

All applicants whose first language is not English must meet Sheridan's English proficiency requirements.

Refer to the website for full admission requirements.

## Career Opportunities

When you're a licensed plumber, a career as a contractor could be just the beginning. Industry experts agree that a plumbing diploma can help open the door to various management positions.
