Full-Time | Trafalgar Road Campus | 4 yrs
(8 semesters)

Break into the industry via the program that produces Academy Award winning animators.

Rigorous instruction in various forms of animation

Sheridan's animation program stresses the strong art and storytelling skills that underlie all animation, regardless of technique. Those skills are employed using the same software as professional productions.

Professional, hands-on instruction and creative freedom

You'll be taught by industry pros, using the same techniques and tools that you'll eventually need in the workplace. You'll also create your own scripts, characters and layouts, and produce your own films.

From story pitch to finished film

In your first two years of Sheridan's Animation program you'll study the principles of animation, learn the art of storyboarding, and hone your life-drawing, layout and painting skills. In Years 3 and 4 you'll be making films. You'll learn the entire process from start to finish — working in 2D, 3D or stop motion.
