FACULTY OF ANIMATION, ARTS & DESIGN

Computer Animation – Digital Character Animation

Launch or advance your career in character computer animation.

Develop an in-demand computer animation skill.

Create characters and creatures audiences will remember

Working in the Sheridan Centre for Animation and Emerging Technologies (SCAET), you'll advance in your ability to create memorable characters/creatures, from script to storyboard to modelling and advanced rigging, all the way through to post-production.

Develop career-ready skills

- Study advanced computer animation techniques.
- Study and apply principles of acting and performance.
- Work on nuances of timing, dialogue and expression.
- Build up your portfolio.
- Showcase your creativity.

Industry professionals as your professors

Sheridan's professors, all longtime veterans of the industry, will do more than work with you on your skills. They'll also teach you good work habits as well --- the little things that can make the difference between mediocre work and outstanding character computer animation.

Admission Requirements

Program Eligibility

- Sheridan's Computer Animation Program or equivalent.

and

- A postsecondary diploma or degree in the visual or fine arts.

and/or

- Four years of demonstrated competence through relevant work experience.

Credentials earned at less than the equivalent of an Ontario College Diploma will not be considered as having met the academic entrance requirements. Weekend workshops and certificates of a one-year duration are not deemed equivalent.

Applicant Selection

Eligible applicants are selected on the basis of:

- Demonstrated competence through related work and/or educational experience

and

- Response to a questionnaire
- Portfolio

A portfolio review fee is required with the submission.

Postsecondary transcripts, indicating courses completed to date, must be submitted to ontariocolleges.ca at the time of application.

Domestic applicants with education outside of Canada must have their transcripts assessed for equivalency through ICAS or WES. A general (document-by-document) or a comprehensive (course-by-course) assessment is required.

Applicants who do not meet the admission requirements for this program will be assessed and advised individually and may be considered for other, related programs.

Refer to the website for full admission requirements.

Career Opportunities

Graduates of our program have a specialized, highly marketable skill that translates directly to the workplace. They enjoy career opportunities in such industries as: film, television, advertising, video gaming and web design. Students often find work in character modelling/rigging.
