

FACULTY OF APPLIED SCIENCE & TECHNOLOGY

Computer Systems Technology – Systems Analyst

Computer Systems Analysts are always in demand with the increasing role of technology in business.

93%

Employer Satisfaction*
with the knowledge and skills that our graduates possess.

Ontario College Advanced Diploma

Program Code: PCSAC

Full-Time | Trafalgar Road Campus, Davis Campus | Co-op | 3 yrs (6 semesters)

Put technology to work for business
– and for your career.

Career-centred curriculum

Coursework encompasses instruction across multiple computing platforms including mobile devices. Over the three-year program, you'll learn:

- Java, C#, XML, and .NET
- Web technologies including HTML5/CSS3/JavaScript/PHP
- Interactive-user interface design
- iOS and Android application development

Capstone project

The Systems Analyst program features a new approach to curriculum delivery in third year called Capstone-Based Learning (CBL). Working in teams, a critical skill in the workplace, you'll design an end-to-end computer system application for a real-world business client.

Degree completion option

After earning your Computer Systems Technology advanced diploma, you can apply to bridge into Year 3 of Sheridan's Bachelor of Applied Information Sciences (Information Systems Security) program.

Admission Requirements

Program Eligibility

Ontario Secondary School Diploma or equivalent, including these required courses:

- One English, Grade 12 (ENG4C or ENG4U)

plus

- Any Grade 12 Math* (C or U) or Grade 11 Functions (MCF3M) or Grade 11 Functions and Relations (MCR3U) (*Applicants presenting with Math MAP4C require a minimum 70%)

or

Mature student status. (See Admissions section of the website for details.)

Applicants who do not meet the admission requirements will be invited to complete pre-admission tests in mathematics and English. Applicants asked to take the test are considered for admission to Term 1 contingent on receiving a minimum grade of 70% in both the pre-admission mathematics/English tests.

Applicants lacking the Mathematics admission requirement for this program may wish to upgrade their Mathematics prior to application. For upgrading information, please contact us.

Applicants may also consider applying to our Technology Fundamentals program. Successful completion of this program will meet the Mathematics requirement and will provide a broader sense of the Science and Technology fields.

Applicant Selection

Eligible applicants are selected on the basis of previous academic achievement (the average of their six highest senior-level credits, including required courses), and/or results of pre-admission testing.

Applicants who do not meet the admission requirements for this program will be assessed and advised individually and may be considered for other, related programs.

Admission at an Advanced Level (Direct Entry)

Students may apply for admission at an Advanced Level (Direct Entry) to Year 2 of this program if they have relevant credits from a university or college. Students may have to complete certain courses from Year 1 prior to graduation.

Refer to the website for full admission requirements.

Career Opportunities

Graduates of Sheridan's Computer Systems Technology – Systems Analyst program find employment as systems analysts in a wide variety of industries, including: health care and pharmaceuticals, finance and aerospace.

HERE ARE SOME SAMPLE JOB TITLES FOR THIS PROGRAM:

Business Analyst

Security Analyst

Computer Programmer Analyst

Systems Administrator

IT Specialist/Analyst

Technical Analyst
