Program Code: PQAS

Full-Time | Davis Campus | 1 yr (2 semesters)

Get high-quality preparation
for a high-quality career.

Why Sheridan?

Our combination of high-tech facilities, engineering expertise and industry connections makes Sheridan uniquely qualified to offer quality assurance training. We know the most current practices in real-world manufacturing, safety and quality assurance, which we replicate in our labs for industry-standard training.

1 year of study

Quality assurance is a growing profession, with very good opportunities for promotion and high earnings. In just one year, Sheridan's Quality Assurance – Manufacturing and Management program can put you on the path to a rewarding career.

Targeted career preparation

Sheridan's Quality Assurance program emphasizes practical, hands-on instruction and career preparation. You'll work with international standards such as ISO9000 and TS16949 while learning state-of-the-art quality assurance applications.

Admission Requirements

Program Eligibility

- Postsecondary diploma or degree in science or engineering

Plus

- Postsecondary math with a minimum grade of 60%

and/or

- Demonstrated competence through related work and educational experience

This program is most appropriate for graduates of college or university programs in engineering and technology related fields, computer sciences, mathematics, statistics, economics, business administration and graduates of natural or environmental sciences.

Computer literacy skills testing may be required.

Applicant Selection

Eligible applicants will be selected on the basis of demonstrated competence through related work and educational experience.

Applicants may be required to complete English testing to demonstrate proficiency.

Postsecondary transcripts, indicating courses completed to date, must be submitted to ontariocolleges.ca at the time of application.

Domestic applicants with education outside of Canada must have their transcripts assessed for equivalency through ICAS or WES. A comprehensive (course-by-course) post-secondary credential assessment is required.

Applicants who do not meet the admission requirements for this program will be assessed and advised individually and may be considered for other, related programs.

Refer to the website for full admission requirements.

Career Opportunities

Quality assurance professionals apply engineering and management principles to improve quality, efficiency, and profit for the companies they serve. They play vital decision making roles, and are increasingly in demand.

HERE ARE SOME SAMPLE JOB TITLES FOR GRADUATES OF THIS PROGRAM:

ISO Coordinator

Quality Assurance Auditor

Quality Assurance Professional

Quality Control Inspector

Quality Control Supervisor

Quality Engineer

Total Quality Management Coordinator

Courses

SOME OF THE COURSES YOU CAN EXPECT TO TAKE IN YOUR PROGRAM

Design of Experiments

Engineering Statistics

International Standard for Quality

Lean and Six Sigma

Quality Planning

Statistical Quality Control

Note: See website for specific terms and course listings.
