Full-Time | Trafalgar Road Campus | 1 yr (3 semesters)

FACULTY OF ANIMATION, ARTS & DESIGN

Visual Effects

From design and pre-visualization to the realization of the director's vision, visual effects are essential in today's filmmaking industry.

Develop your artistic and technical skills for the visual effects industry.

Art and technology

Visual effects is truly a balance of left and right brain thinking. You must be able to understand and utilize both art and technology to create effective visual effects. Only by exploring the latest software and technology in-depth, will you be able to apply and grow your artistic talent.

Be a part of the film-making process

Whether it's creating massive destruction scenes or expanding the scope of production, nearly every film now requires visual effects for support. By collaborating with students in other filmmaking programs, you'll learn to become part of the film production process and capable of creating and integrating any digital elements required to tell the story.

Now and then

You'll come to Sheridan with artistic ability and experience using 3D software. We'll build on that foundation over a period of 10 months and teach you the tools and techniques to become a successful visual effects artist. We'll help you explore and realize your visions and find your path in the visual effects industry.

Admission Requirements

Program Eligibility

- Sheridan's Computer Animation program or equivalent as assessed by Sheridan.
- and
- A postsecondary diploma or degree in the visual or fine arts.
- and/or
- Four years of demonstrated competence through relevant work experience.

Credentials earned at less than the equivalent of an Ontario College Diploma will not be considered as having met the academic entrance requirements. Weekend workshops and certificates of a one-year duration are not deemed equivalent.

Applicant Selection

Eligible applicants are selected on the basis of:

- Demonstrated competence through related work and/or educational experience
- and
- Letter of Intent and résumé
 - Portfolio assessment

A portfolio review fee is required with the submission.

Postsecondary transcripts, indicating courses completed to date, must be submitted to ontariocolleges.ca at the time of application.

Domestic applicants with education outside of Canada must have their transcripts assessed for equivalency through ICAS or WES. A general (document-by-document) or a comprehensive (course-by-course) assessment is required.

Applicants who do not meet the admission requirements for this program will be assessed and advised individually and may be considered for other related programs.

Refer to the website for full admission requirements.

Career Opportunities

The Sheridan Visual Effects program will help to prepare you to enter the film and television industry. You'll have experienced each step in visual effects production so you may choose to continue on as a generalist or specialize in one of the skills that interests you the most.
